APPROVAL OF STATE ENGINEER

This is to certify that I have examined the foregoing application, and do hereby grant the same, subject to the following limitations and conditions:

This permit is issued subject to existing rights and is further
subject to revocation if and when water can be furnished by an entity
such as a water district or a municipality engaged in furnishing
water. A totalizing meter must be installed in the discharge pipe
line, near the point of diversion, and accurate measurements must
be kept of water placed to beneficial use. It is understood that
this right must allow for a reasonable lowering of the static water
level. The well shall be equipped with a 2-inch opening for measuring
depth to water. If the well is flowing, a valve must be installed
and maintained to prevent waste. This source is located within an
area designated by the State Engineer pursuant to NRS 534.030. The
State retains the right to regulate the use of the water herein
granted at any and all times.

The amount of water to be appropriated shall be limited to the amount which can be applied to beneficial use, and not to exceed 0.02 cubic feet per second, but not to exceed 2.0 million gallons annually.

Actual construction work shall begin on or before April 22, 1974

Proof of commencement of work shall be filed before May 22, 1974

Work must be prosecuted with reasonable diligence and be completed on or before April 22, 1974

Proof of completion of work shall be filed before May 22, 1974

Application of water to beneficial use shall be made on or before April 22, 1975

Proof of the application of water to beneficial use shall be filed on or before May 22, 1975

Map in support of proof of beneficial use shall be filed on or before

Commencement of work filed JUN 25 1974
Completion of work filed JUN 25 1974
Proof of beneficial use filed
Cultural map filed
